PROFESSIONAL SUMMARY

Result-oriented Flutter Developer with 2+ years of experience developing cross-platform mobile and web applications using Flutter and Dart. Proven track record in building scalable applications, integrating REST APIs, Firebase services, payment gateways, and managing complex states using Bloc, Provider, GetX, and Riverpod. Skilled in performance optimization, clean architecture, responsive UI design, and full-cycle application deployment on Google Play Store and Apple App Store.

TECHNICAL SKILLS

Languages: Dart

Frameworks & Technologies: Flutter, Firebase, REST APIs, JSON

State Management: Bloc, Provider, Riverpod, GetX

Databases: Firestore

Tools: Git, GitHub, Postman, Android Studio, VS Code, Xcode

Deployment & DevOps: Google Play Store Deployment, Apple App Store Deployment, CI/CD

PROFESSIONAL EXPERIENCE

Flutter Developer – ECFILE SOLUTIONS PVT LTD

Chennai, Tamil Nadu | Aug 2025 – Present

- Developed and maintained robust Flutter applications across Android, iOS, and Web platforms.
- Integrated REST APIs and third-party services to ensure seamless, real-time data communication.
- Implemented highly responsive UI components, ensuring a consistent user experience across varied device sizes.
- Optimized core application performance, significantly reducing loading times and memory usage.
- Collaborated closely with backend developers, UI/UX designers, and QA teams within an Agile environment.
- Successfully published, updated, and maintained production applications on both the Play Store and App Store.

Flutter Developer – KNOW YOUR LEADERS

Thanjavur, Tamil Nadu | Aug 2024 – Aug 2025

- Built and maintained feature-rich Flutter applications optimized for political and community engagement.
- Implemented secure user authentication, complex API integrations, and robust state management solutions.
- Developed a library of reusable widgets and established scalable code architectures for future feature updates.
- Identified critical bottlenecks, fixed production bugs, and improved overall application performance.

- Developed end-to-end mobile applications using Flutter and Dart framework.
- Integrated essential Firebase services including Authentication, Firestore, Cloud Functions, and Push Notifications.
- Translated Figma designs into functional code, focusing on UI implementation and custom feature enhancements.
- Participated actively in rigorous testing, debugging, and initial deployment processes.

KEY PROJECTS

UBill – GST Billing and Business Management Application

Technologies Used: Flutter, Firebase, REST APIs

- Developed comprehensive GST billing software featuring invoicing, inventory management, PDF generation, and Excel data export.
- Implemented secure QR code payment functionalities for retail users.
- Designed and engineered responsive layouts tailored for both web and mobile interfaces.
- Engineered automated reporting modules for GST summaries, including GSTR-1, GSTR-2, and HSN breakdowns.

VSafe – Security and Smart Home Management

Technologies Used: Flutter, Firebase

- Developed a cross-platform security application focused on real-time smart home monitoring.
- Integrated push notification streams and real-time database listeners for immediate security alerts.
- Successfully deployed and maintained the production application on both Android and iOS markets.
